

*Cleaning Pigs*

**DC2R**

**6" - 14"**  
**152mm - 356mm**

**Options**

The **DC2R**, **DC3R** cleaning pigs are available in sizes 6"(152mm) through 14" (356mm) and with double high tempered, carbon steel brushes.

- Gauging plates of aluminum or steel, and either in slotted or standard styles.
- Carbon Steel, Stainless Steel or Plastic Brushes.

**Description**

Apache **DCR** cleaning pigs are used to remove debris from pipelines thereby improving valuable flowrates. Similar in design to the SCR pig, the DCR is equipped with two fixed steel brushes to further enhance cleaning performance.

**Features**

An additional Apache cup (in **DC3R**) is also available to further increase the versatility of these pigs.
