

Cleaning Pigs

SC2A

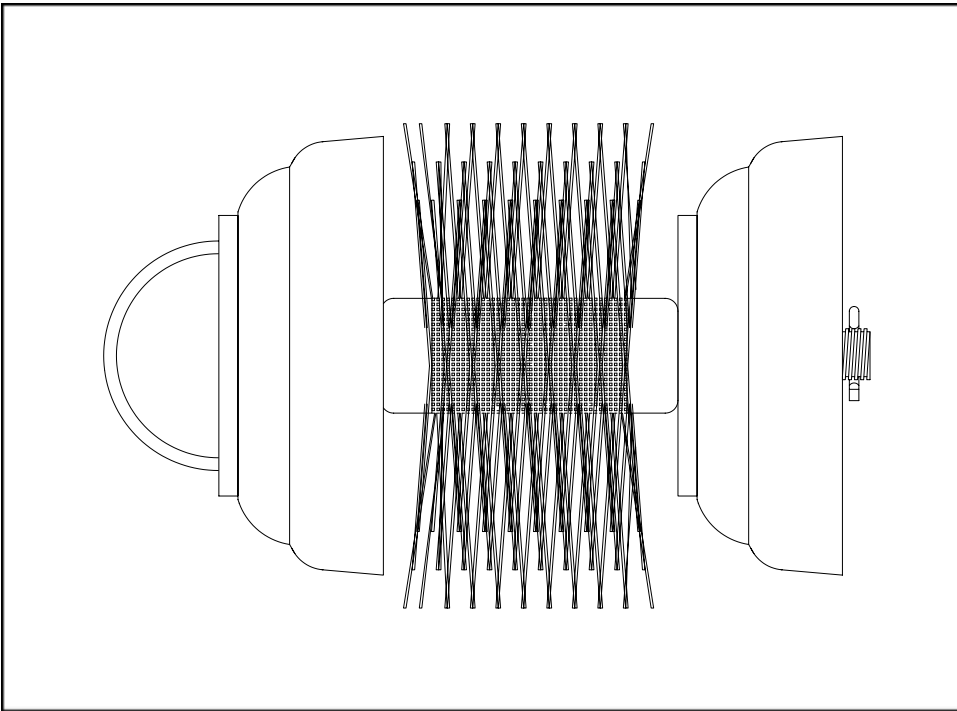

3" - 4"
76mm - 102mm

Options

The Apache **SCA** series are available in sizes 3"(76mm) through 4" (102mm).

- Scraper cups are available in different durometers and materials.

Apache will assist you in selecting the proper pig for your application.

Description

The **SCA** cleaning pig improves flow rate deficiencies in small gathering lines. The ability to negotiate sharp bends and the cleaning capability of the series **AB** brush make the **SCA** an efficient cleaning tool.

Features

The **SC2A** pigs can traverse 1.5D bends, and are built with durable Apache polyurethane scraper cups. Elements and brushes can be easily replaced to provide additional service.
