

Hurricane LP

3-12" (76-305mm)

The Hurricane filming and lead pig combination makes for efficient filming system.

The Hurricane Lead Pig (LP) acts as the lead pig of a double-pig train. It carries inhibitor or biocide treatment, allowing minimal by-pass. The inhibitor is contained between the LP and the Hurricane Filming Pig (FP). As the train moves through the line, the FP leaves a film of inhibitor on the pipe wall.
