

Tornado III

2-4" (51-102mm)

The Tornado III is compact pig designed for small diameter pipelines such as those found in crude oil gathering systems. The unique cup design permits this pig to travel through short radius bends. The Tornado III is designed for use in both non-metallic pipe and steel lines. Typically the Tornado's strength lies in proving a line in a pipe network prior to operational pigging. The combination of discs and two cups make it superior to all other Tornado pigs.

Size	A	B	C	Part #
2"	3.000	4.500	2.125	72-0385-02S
3"	4.125	5.875	3.250	72-0385-03S
4"	4.875	7.250	4.375	72-0385-04S

Designed to negotiate 1.5D or greater bends.

Features & Benefits:

- Solid-cast urethane.
- Lightweight.

Options Available:

- Available in different durometers.

60-63 DUROMETER
 Very soft and pliable

70-75 DUROMETER
 Somewhat firm, but quite flexible

80-85 DUROMETER
 Firm with fair flexibility. Most common for solid-cast pigs
