

UT-C Cup

6-14" (152-356mm)

The unique design of the UT-C cup offers the cleaning advantages of a scraper cup and the flexibility inherent in a conical cup. To provide a longer cup life, the wear surface of the cup is three times larger than any other UT-style cup on the market. The pressure of the pipeline product presses the cutting edge firmly against the pipe wall, ensuring an optimum seal. The flex area between the shank and the cleaning surface allows the cup to traverse reductions in the pipe bore caused by buckling of, or anomalies in the pipeline.

As with all of Apache products, the Series C cup was specifically developed to perform, efficiently and reliably during batching operations. To enhance durability, it's made from Reliathane, Apache's special blend wear-resistant polyurethane.

To enhance cup life, conical cups are available with a variety of wear-resistant additives. In fact, Apache developed a proprietary chemical resistant urethane to help protect against conditions, such as hydrogen sulphide, encountered in severe environments.

Size	O.D.	I.D.	Part #
6"	6.375	2.500	91-4015-06
8"	8.500	3.000	91-4015-08
10"	10.625	3.625	91-4015-10
12"	12.750	4.625	91-4015-10
14"	13.845	4.625	91-4015-14

Options Available:

- Different durometers available on request.
- High temperature material.
- Custom I.D/O.D bolt pattern and thickness available on request.
