

BRUSHES

INTEGRITY XB

20-48" (508-1219mm)

The Integrity XB has been developed specifically for the North American market and are made to fit existing brush cleaning pigs. The brush has been designed to clean better and last longer than existing products and features a new unique construction method with Pencil Brush Technology. Each brush features stiff 22 gauge memory wire bristles at the front for heavy scraping and longer, flexible 25 gauge bristles at the rear for deep cleaning. High grade tinned hardened & tempered steel memory wire provide excellent cleaning performance & corrosion resistance.

Amazing Cleaning Performance

- New Pencil Brush Technology
- 360 degree Rebound Memory Wire
- Increased Wire Bristle Density
- Over 7,000 Hardened and Tempered Steel Wires Per Brush

Corrosion Resistance

- All Parts have Corrosive Resistance
- Powder Coated Back Plate
- Tin Coated Individual Steel Wires
- Non Corrosive High Grade Urethane Base

New & Unique Product

- Different to Anything Else in the Market
- Options to Customize
- Fully Developed and Tested
- Looks Fantastic
