

Series C

SCRAPER CUP

16-48" (406-1219mm)

The unique design of the Series C Cup provides both the cleaning advantages of a scraper cup and the flexibility of a conical cup. The wear surface is three times larger than any other scraper, which promotes longer cup life, while the pressure of the product keeps the cutting edge firmly against the pipe wall to provide an optimum seal. The flex area between the shank and the cleaning surface allows the Apache cup to traverse 15% reductions in pipe bore caused by buckling or flattening of the pipeline.

Size	O.D	I.D	Weight	Part # 86A
16"	16.000	8.750	8.9	91-3015-16
