

# ALL URETHANE

## VERSI III - modular cast

6-20" (152-508mm)

The Apache Versi III are a bi-directional, all-urethane, durable and economical pipeline pig. Designed for versatility, it can easily be adapted for cleaning, batching, or displacement operations. The flexibility of the solid urethane shaft means even wear of the sealing elements, an inherent problem with heavy steel mandrel shafts.

Size	A	B	C	Part #
6"	9.250	15.375	6.375	73055306
8"	12.000	19.875	8.375	73055308
10"	15.000	24.375	10.500	73055310
12"	17.500	27.625	12.500	73055312
14"	21.250	30.750	13.875	73055314
16"	24.000	36.125	15.875	73055316
20"	29.750	43.125	20.000	73055320

### Features:

- No metal parts to bend, corrode or damage pipe lining.
- Remove and replace only worn parts instead of entire assembly.
- Customize configurations to suit application.
- All cups and discs are manufactured from proprietary Reliathane.
- Light-weight.
- **Designed to traverse 1.5D bends.**

### Options:

- Configure with any combination of cups and discs.
- Circular flat carbon steel, stainless, or plastic brushes.
- Available in different durometers and materials.
