

THE ONLY PATENTED PIGGING POLES IN THE INDUSTRY AND THE ONLY TOOL ON THE MARKET THAT HAS BEEN DESIGNED, MANUFACTURED, AND TESTED SPECIFICALLY FOR THIS PURPOSE.

The Pigging Poles consist of three sections pinned together for a total length of 18'. One end of the pole has a four-inch round ram, making it easy to seat the pig, and the other end has a hook for easy pig retrieval. An optional handle makes handling the pigs even easier. The poles are made of all aluminum, so they never create sparks. The rams, hooks, and poles are all attached using pins and can be separated into 6 foot lengths for easy transportation.

**THE SAFEST WAY TO
RETRIEVE PIGS
FROM PIPELINES**

STANDARD SET INCLUDES:

3 x 6' POLES 3 x LOCKING PINS

1 x RAM 1 x ALUMINUM ALLOY HOOK

CUSTOM SIZES AVAILABLE UPON REQUEST

FEATURES:
