

ELECTRONIC TRANSMITTER PROTECTION – DELTRIN CAN

Our Delrin Cans feature a threaded cap with hex head and pressure vent. In addition to the pressure vent built into the cap there is a bleed bolt threaded into the cap designed as the primary pressure relief. Delrin Cans come standard with grooves to accommodate various sizes of OD rings for a secure fit in any size transmitter cavity. OD rings allow the same Delrin/transmitter combination to be quickly and easily modified to fit in a variety of pig and/or cavity sizes.

FEATURES:

- AED O-rings for bleed bolt and cap
- Threaded base for securing to various pig cavities
- Hexagonal base of canister body

SIZE		PART #
2.0"	Body	01976220
	Cap	01976320
2.5"	Body	01976225
	Cap	01976325
3.0"	Body	01976230
	Cap	01976330
3.5"	Body	01976235
	Cap	01976335
