

The Apache SLS (super light swab) and MLS (medium light swab) are lightweight open cell foam pigs designed for absorption and drying pipelines.

The soft densities allow both styles to easily navigate restrictions and be used in varying wall thicknesses and pipeline ID's. The MLS is slightly firmer allowing that style to hold up better and do some light cleaning. Most commonly coated on one end with our tough polyurethane elastomer.

SIZE	O.D.	LENGTH
1"	1.5"	2.25"
2"	2.5"	3.75"
3"	3.5"	5.75"
4"	4.5"	6.75"
6"	6.5"	9.75"
8"	8.5"	12.75"
10"	10.5"	15.75"
12"	12.5"	18.75"
16"	16.5"	24.75"
20"	20.5"	30.75"
24"	24.5"	36.75"
30"	30.5"	45.75"
34"	34.5"	51.75"
36"	36.5"	54.75"
42"	42.5"	63.75"
48"	48.5"	72.75"

### FEATURES & BENEFITS:

- Drying
- Works in all piping systems

### OPTIONS:

- Available in 1-2lbs (SLS) and 2-3lbs (MLS) densities
- Handling rope
- Custom OD's and lengths
- Bi-directional (coated on both ends)

PLEASE CONTACT APACHE FOR MORE DETAILED INFORMATION.
